

## Government Mobile Workforce Essentials

Secure and private employee portal for BC's Public Sector

Many organizations today make investments in intranets, HR portals, scheduling systems, and other key IT assets. However, there is a challenge for organizations to securely and safely expose these resources to employees who don't have company-issued devices on their corporate network. **Government Mobile Workforce Essentials** enables workers to access their intranet and internal IT systems from home and from their smartphones, protected by multi-factor authentication, risk-based authorization policies and single sign-on.

Softlanding's **Government Mobile Workforce Essentials** solution leverages both Microsoft's Enterprise Mobility & Security Suite (EMS) and Azure Active Directory Premium (AADP) as its centerpiece technologies. Government Mobile Workforce Essentials provides customizations to its core systems to ensure that no personal information (PI) is stored outside Canada without consent, as per BC's Freedom of Information of Privacy Act (BC FIPPA) requirements.

### SOLUTION OFFERING | DETAILS

Softlanding's **Government Mobile Workforce Essentials** is a designed for BC's public sector organizations determined to leverage IT to maximize engagement across all their workers. For as little as \$12.20/month/user, Softlanding can get organizations up and running with Enterprise Mobility & Security suite and Azure Active Directory Premium with proactive sustainment and support.

#### SOFTLANDING MOBILE WORKFORCE ESSENTIALS

500-1000  
Users\*

SECURE REMOTE ACCESS

= \$12.20\*  
/month/user

Already have Microsoft licensing? Save up to 50% on your monthly costs!

\*Organizations under 500 users, pricing is \$3,000/month + \$6.20/month/user

\*\*Above 1000 users, special discounting is available

## Customer Value

### External Access to Internal Resources

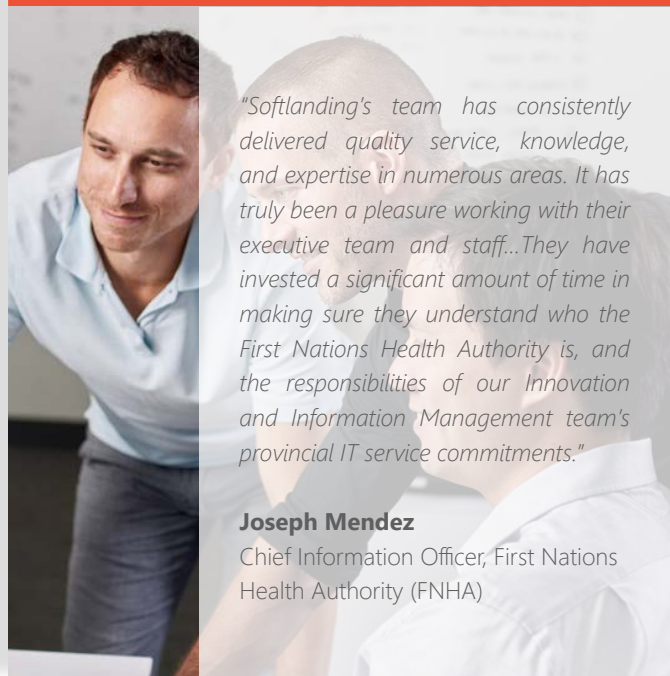

Provide access to your intranet, HR, finance, IT and other technology resources through an employee portal, protected by multi-factor authorization.

### Lower IT Costs

The roles and responsibility of IT staff is simplified as employees are now able to do self-service password resets and ITSM access on their own. On-boarding and off-boarding employees is greatly simplified!

### Improved Secure Access to SaaS Applications

Azure Active Directory Premium provides an affordable, easy to use solution to give employees and business partners single sign-on (SSO) access to thousands of cloud SaaS applications like Office 365, Salesforce, Twitter, Facebook, Dropbox and more. Corporate access to applications are controlled centrally so that passwords are out of the hands of users.

"Softlanding's team has consistently delivered quality service, knowledge, and expertise in numerous areas. It has truly been a pleasure working with their executive team and staff...They have invested a significant amount of time in making sure they understand who the First Nations Health Authority is, and the responsibilities of our Innovation and Information Management team's provincial IT service commitments."

### Joseph Mendez

Chief Information Officer, First Nations Health Authority (FNHA)
